PROFESSIONAL SUMMARY

Frontend Developer with 5+ years of experience delivering high-performing, scalable, and user-centric web applications. Deep expertise in React, Next.js, and TypeScript, with a strong command of modern CSS tooling including Tailwind CSS. Proven track record of leading UI development in logistics and e-learning platforms, mentoring junior engineers, and collaborating across cross-functional teams to ship polished, accessible interfaces. Passionate about clean architecture, component reusability, and continuous improvement in fast-paced product environments

WORK EXPERIENCE

UI Engineer

Feb 2023 – Present

Shipway by Unicommerce · Gurugram, India

- Led frontend development of responsive, user-focused interfaces for a logistics and shipment management platform serving thousands of daily active users.
- Designed and built a scalable React component library with Tailwind CSS, significantly improving consistency and reducing redundant UI code across the product.
- Implemented real-time data interactions and optimized rendering performance using memoization, lazy loading, and code-splitting techniques.
- Mentored two junior frontend developers through regular code reviews, pair programming sessions, and technical guidance.
- Collaborated closely with product managers, designers, and backend engineers to deliver end-to-end features from requirements to production
- Improved overall UI performance and user experience across complex logistics workflows, reducing friction in key user journeys.

Frontend Developer

Oct 2021 – Feb 2023

Koenig Solutions · Delhi, India (1 yr 4 months)

- Built clean, accessible, and performance-optimized web interfaces for a Learning Management System (LMS) used by corporate training teams
- Developed a library of reusable React components that improved development speed and UI consistency across multiple product modules.
- Translated UX wireframes and design specifications into pixel-perfect, responsive layouts using React, Tailwind CSS, and CSS3.

PERSONAL DETAILS

DATE OF BIRTH
10 November 1998

NATIONALITY
Indian

PLACE OF BIRTH
Delhi, India

LANGUAGES

English, Hindi

- Enhanced accessibility and cross-device compatibility, ensuring seamless experiences across desktop, tablet, and mobile.
- Worked closely with backend and design teams to refine feature requirements and resolve interface issues in an agile workflow.

Web DesignerAug 2020 – Oct 2021
GIP Infosystems · Delhi, India (1 yr 2 Months)

- Developed standards-compliant, responsive web pages for multiple enterprise client projects using HTML5, CSS3, JavaScript, jQuery, and Bootstrap
- Maintained cross-browser compatibility and resolved UI inconsistencies identified during QA testing cycles.
- Collaborated with QA and product teams to validate functionality, resolve UI bugs, and refine user flows based on evolving requirements
- Delivered mobile-first, responsive layouts tailored for diverse device types and screen sizes

EDUCATION

Bachelor of Computer Applications (BCA)2016 – 2019
I.E.C University, Himachal Pradesh, India
